

# Notice of Second Public Consultation Meeting

## We want your help shaping Scarborough Centre's future transportation network!

We invite you to learn more about the *Scarborough Centre on the Move Transportation Master Plan* study and play a key role in determining future transportation network improvements at our second public consultation meeting.

Date: **Wednesday, May 10, 2017**

Time: 1:30pm to 9:00pm Drop-in Session

Place: Scarborough Civic Centre  
150 Borough Drive, M1P 4N7

This venue is wheelchair accessible

Please contact us to arrange for additional accommodations

This is an excellent opportunity to provide your input on what is important from a transportation perspective in Scarborough Centre. The session's focus will be on creating a dynamic forum where productive discussions can take place.

### Meeting Overview

This interactive drop-in session will ask for your input and provide details on the transportation network alternatives being considered, the evaluation undertaken to date, and the preliminary preferred transportation network. Initial recommendations include:

- Developing a simplified street network and a summary of key moves, including establishing a signalized at-grade intersection at McCowan Road and Progress Avenue;
- Improving pedestrian and cycling infrastructure throughout the Centre; and,
- Supporting future transit improvements.

### Study Purpose

Over the next 20-30 years, Scarborough Centre is expected to change significantly through development and public sector investments. *The Scarborough Centre on the Move Transportation Master Plan* study will guide these changes and establish a transportation network supportive of all users, focusing on building connections within the Centre as well as to the surrounding area and the rest of the city. The study will support the vision and evolution of Scarborough Centre into a walkable and connected urban centre, with an efficient, safe, and balanced transportation network.

### Study Area

## The Process

This Transportation Master Plan study will follow Phases 1 and 2 of the Municipal Class Environmental Assessment (MCEA) process, providing opportunities for public consultation at key stages. The process also involves the identification of problems/opportunities, developing and evaluating a reasonable range of alternatives, and selecting a preferred transportation network.

This study's findings may result in amendments to the City of Toronto Official Plan.

## We would like to hear from you:

Public consultation is an important part of this study. At this meeting, we are asking for your input on:

- Transportation network alternatives and their evaluation;
- Your priorities for the evaluation; and,
- Preliminary preferred transportation network.

We welcome your insights and comments throughout the study.
